

Fee Policy

Financial consideration is an important part of the counseling process. To set realistic treatment goals and priorities, it is important to evaluate what resources are available to pay for your treatment. Below is a fee policy that has been designed to assist this process.

1. The fee for my service is \$130 for 50-minute sessions.
2. If your insurance is not one I have a current agreement with I will bill your insurance for out of network claims. You will pay my fee at time of service and the insurance will reimburse you personally.
3. All fees are due at the time of service. I take cash, check or most credit cards and HSA cards.
4. While it is never our preferred choice, it may become necessary to send an account to collections. If this happens to your account, you are responsible for all collection fees. Counseling will be suspended until your account is brought up to date and paid in full.
5. Any check returned for non-sufficient funds (NSF) will be charged back to your account along with an added \$20.00 service fee. The client may then be asked to pay in cash, money order, or certified check for each session.

Please discuss with me at any time any concerns you may have regarding this fee policy or your account.

I have read and understand this fee policy and agree to its terms.
